PRESS ADVISORY
**SPACEPORT AMERICA EXECUTIVE DIRECTOR LANDEENE TO SPEAK ON
PROGRESS, FUTURE OF SPACEPORT**

LAS CRUCES – New Mexico Spaceport Authority (NMSA) Executive Director Steve Landeene will speak at the regular meeting of the New Mexico High Tech Consortium at the Sunset Grill at Sonoma Ranch Country Club starting at 11:30 a.m. on Tuesday, March 23.

As progress continues at Spaceport America, the world's first purpose-built commercial spaceport being built north of Las Cruces, Landeene will give an update of the latest construction activity and discuss the latest prospects for the future of the emerging commercial space industry. The next chapter in space transportation is being written right now in the State of New Mexico, and forward-thinking pioneers are developing both vertical and horizontal launch vehicles using the power of free-market enterprise.
